EH&S

Looking for guidance
Monitoring hazardous materials after purchase
Disposal of hazardous materials
Limited availability of resources to monitor
Lack of resources to support – PPE, training

Risk Services

Looking for guidance
Classification as RSO is gray area
Gaps in insurance coverage
Limited availability of resources to monitor
Student transportation concerns

Eng Departments/PI

PI support inconsistent across campuses Space allocation issues Inconsistent 'ownership' – Not all PIs can dedicate the time Limited availability of resources to monitor

Communication Misalignments

Rocketry Components/Activities
Hazard and Risk Assessments
Available Resources

Students

PPE – Needs, replacement, buying off amazon and hoping for the best Year after year knowledge loss

Training – some utilize UCLC, others made their own, not all have access Slow progress in development -> hazardous attitudes to get it done University support feels inconsistent to students

Travel safety/insurance – access to University fleet cars inconsistent
